EMERGENCY SHOWERS AND EYEWASHES - SHOWERS AND EYEWASH ACCESSORIES

Adjustable pressure reducing valve

The valve reduces a high water supply pressure to a constant lower pressure. The variations in the inlet pressure do not influence the outlet pressure, it is balanced.

Provides adequate working pressure for Emergency Equipment.

SUPPLY CONDITIONS

CONNECTIONS: R1" M

INLET PRESSURE: Maximum 25 bar

OUTLET PRESSURE: 1.5 - 6.0 bar (Preset 3 bar)

WORKING TEMPERATURE: Maximum 70°C

SUPPLY

Housing in DZR brass with pressure gauge connections on both sides

Threaded male connections

Adjustment knob and setting scale

Fine filter with 0.16 mm mesh in stainless steel

Filter bowl in brass

Pressure gauge 0 - 10 bar
