EMERGENCY SHOWERS AND EYEWASHES - SHOWERS AND EYEWASH SPARE PARTS

Eyewash valve G1/2" with drain

Self-draining valve for Eyewashes:

- Low torque valve designed to be used in emergency situations, since it do not become obstructed nor do it stick up after long periods of inactivity.
- The valve incorporates a water flow regulator at 22 l/min that allows to supply an adequate flow for the Emergency Equipment in all pressure range.
- Self-draining function that purges residual water from the Emergency Eyewash. Draining stagnant water prevents the proliferation of bacteria and avoid it from freezing at low temperatures.

CONNECTIONS: Female threads ISO 228 G1/2"

WATER INLET PRESSURE: Recommended 2 bar / Min. 1.5 bar / Max. 4 bar

Full bore valve 1/2"
